PETITION TO THE CANADIAN HOUSE OF COMMONS

I, the undersigned, am deeply opposed to Canada's plan to slaughter nearly one million seals over a three-year period - the highest quota in history. The vast majority of these animals (near 95%) are just days or weeks old and most are slaughtered in unforgivable inhumane ways. Canadian legislators who continue to approve and ignore this excessive cruelty and waste inherent in this industry is simply unacceptable. Please act immediately to end this abuse and repair the damage to Canada's reputation as a humane and ecologically responsible society in the ethical treatment of its animals.
